

Definition of Done

Task Level

- Task has functionality implemented in respective branch
- Meets coding standards
- Testing has been documented
 - Since we haven't set up a testing framework, we should be documenting the steps we took to test a feature.
 - See: [Test Plan and Report Template](#)
- All code follows project architecture

User Story Level

- All tasks in user story have been completed at the Task Level
- Functionality is clear and accessible to user with no major issues
- Code has been reviewed and integrated to main branch
